The screenshot displays the IBM Cognos Analytics report design environment. The central workspace is a large rectangle divided into four colored sections: a light blue 'Columns' section at the top right, a dark blue 'Rows' section at the bottom left, a light blue 'Measures' section at the bottom right, and an empty top-left quadrant. To the left of the workspace is a sidebar with 'Insertable objects' and a 'Select a source' button. To the right is a 'Properties' panel with expandable sections: 'CONDITIONAL' (with sub-items like Conditional styles, Style variable, Render variable, No data contents, No Data Available), 'DATA' (with sub-items like Query, Query1, Rows per page, Master detail relationships, Unavailable, Suppression, Default measure), 'GENERAL' (with sub-items like Pagination, (Defined), Fact cells precedence, Rows, Has fact cells, Render page when empty), 'BOX' (with sub-items like Border, Margin, Box type), and 'COLOR & BACKGROUND' (with sub-item Background image). The top navigation bar shows 'IBM Cognos Analytics', 'New report', and various icons. The bottom status bar shows system information like temperature, search, and time.
